**Annual Ag Tour: July not August**

Thanks to Bill Miller who caught my “major” mistake in the April newsletter with the wrong month for our summer agriculture tour. **The correct date is July 27, 28, 29.** Lindie Huffman, UK summer intern and I will be working on the tour and will have a tentative schedule for producers to review by late May or early June. If you are interested in holding a seat on the tour bus give the office a call at **572-2600**.

**Pasture Walk**

In my opinion, how you manage your pastures and hay fields has a major impact on the productivity and profitability of our farming operations. With that said, please take the opportunity to participate in the **May 9<sup>th</sup>, 6:30 p.m. “Pasture Walk” program at Tom Hounshell’s farm.** This program will allow you to see a variety of renovation demonstrations using both frost and no-till seeding methods on pastures and hay fields. See the enclosed flyer for more details.

**Pesticide Collection Program**

I’m sure many of you have unwanted chemicals on your farm that you would like to safely dispose of. If that is the case, plan on participating in the Campbell County Pesticide Collection Day scheduled for **May 19 from 8:30 a.m. to 4:00 p.m.** Call the Extension office at 572-2600, to schedule the KY Department of Agriculture to visit your farm and collect your unwanted farm chemicals. You do not have to be at the farm when the pesticides are collected. See the enclosed flyer for more details.
