The 4-H program has a vision to develop youth to be outstanding, self sufficient citizens through informal education and leadership development. We offer programs through school enrichment and school club settings, which involve presentations, workshops and projects based on subject areas most beneficial to your classroom needs. With the rapid changes in 4-H we would like to offer a more curriculum-based program for all of Jefferson County Schools. We hope this programming format will be a beneficial learning tool for your students.

4-H SCHOOL CLUBS (Grades 4th – 12th)

Once a month meeting (7 meetings throughout the year). Students will elect club officers and possibly use real voting booths for school club elections. Monthly meeting topics will include (but not limited to) leadership, public speaking, and Natural Resources. No program meetings in the months of December and May.

School Enrichment and After School Programs (all programs are not listed)

LEADERSHIP	Youth will learn what it takes to be a good leader. Using 4-H Curriculum Step up to Leadership and Unlock Your Leadership Potential and Environmental Leadership Camps .
FAMILY & CONSUMER SCIENCES	Babysitting Program (6 hours of instruction, cost \$10-\$15 per student depending on schools need), Fun With Foods (After School Cooking, cost depends on supplies needed for cooking), Sew Much Fun (After School Basic Sewing, schools will be asked to pay for fabric and patterns if needed), Designer in Me (Interior Design Program, cost of program is approximately \$3.00 per student).
NATURAL RESOURCES	Youth experience the challenge and excitement of exploring their environment. Project WET, Project WILD, Project Learning Tree, Project Food Land & People and Environmental Leadership Camps .
SCRAPBOOK LITERACY	This is a fun activity similar to a portfolio. Students will develop a personal narrative using their own photos. Using different poem formats, students will incorporate all items into a scrap book format. (Program cost is for extra materials).
4-H DOLLARS AND SENSE (Elementary) 4-H REALITY STORE (Middle/High School)	Budgeting and economic exercise. Students receive an allowance/salary for a given month and will be required to purchase necessities at the "reality" booths. Program must be able to be performed in an open area (ex. Gym, lunchroom).
CHICKEN INCUBATION	4-H provides an incubator for class room use. Students can observe chicks hatching; learn about poultry and life cycles.
COMMUNICATIONS	Workshops will teach students the skills to successfully create a speech or demonstration. The purpose of this program is to expose youth participants to various communication techniques and skills. (6 hours of instruction).
SCIENCE ENGINEERING & TECHNOLOGY	Students will engage in activities that are based in the science fields. Topics include Biotechnology (Clover Scene Investigation), Electricity, Environmental Science, and Energy . (6 hours of instruction)
HEALTH AND NUTRITION	Youth explore the importance of healthy eating and physical activities. Curriculum Jump Into Food and Fitness, Professor Popcorn, and Health Rocks .

For any school club, school enrichment or after school program, please contact Chanda Hall, Extension Agent for 4-H Youth Development, at chlhall1@uky.edu
