

# **Come Sew With Us**

## **Supply List for November 23**

### **Yipes, Stripes!**

Cut only squares and a stripe to make this fast and easy table mat and the technique can be used with any stripe. Since striped fabric can vary greatly in the size of the stripes and the number of times it is repeated on a width of fabric, the yardage amounts can also vary greatly.

### **Yardage Requirements**

72" stripe fabric\*  
2/3 yard center and backing fabric  
24" square of thin batting

\*If you are making several mats, you may want to purchase a two-yard piece of the striped fabric. If a certain stripe appears at least twice on the fabric, you could purchase just one yard of fabric and piece the stripe as described in the instructions. Any extra stripes on the fabric could be used to make additional mats or used to decorate matching tea towels.

Also included are the instructions for increasing or decreasing the size of the mat.
